

Akash Samanta

Full-Stack Software Engineer | Angular | Java | AI/ML

Navi Mumbai, Maharashtra | aks2.samanth90915@gmail.com | github.com/aks-samanta | linkedin.com/in/akash-samanta

Profile

Full-Stack Software Engineer with **3.5+ years of experience** building and modernizing production web applications across insurance and education domains. Strong hands-on experience with **Angular, TypeScript, Java, Spring Boot, REST APIs, SQL, .NET, RxJS, NgRx, AWS, and Azure DevOps**, with proven experience in frontend architecture, performance optimization, CI/CD, production deployments, debugging, stakeholder collaboration, and end-to-end feature delivery. Currently pursuing a **9-month AI/ML program from Vishlesan i-Hub, IIT Patna**.

Technical Skills

Languages: Java | TypeScript | JavaScript | Python | SQL

Frontend: Angular | RxJS | NgRx | Angular Material | Responsive UI | PWA

Backend: Spring Boot | Spring Security | Spring MVC | Hibernate | JPA | .NET | Node.js | RESTful APIs | JWT

Databases / Cloud: MySQL | MongoDB | AWS | Azure DevOps | CI/CD | Git | Maven | Swagger

AI / ML: NumPy | Pandas | Scikit-learn | Machine Learning | Deep Learning | NLP | Computer Vision | Generative AI | LLMs | RAG

Professional Experience

Software Developer (Frontend Heavy)

Apr 2025 – Present

Traceart Technologies | Navi Mumbai, India Angular | TypeScript | .NET | SQL | Azure DevOps | REST APIs

- Owned frontend development for a **corporate group - health insurance platform** supporting an estimated **20–30 lakh enrolled members**, covering **10–15 modules and 15+ role-based URLs/pages**; delivered **90% of a major UI/UX revamp** from Figma.
- Led the **Angular 9 → 12 migration** and implemented reusable components, responsive UI, role-based access, form validation, API integration, multi-level member approval, and enforced password-reset workflows.
- Worked directly with **business/client stakeholders** on BRDs and change requests in a **2-member engineering team**; independently handled **production deployments, Azure DevOps CI/CD pipelines, source integration, and release troubleshooting**.
- Improved frontend performance, raising **Lighthouse scores from 50–60 to 75+**; resolved production issues including **PDF download failures in WebView** and built/deployed a new portal from scratch.

Angular Developer

Jan 2023 – Apr 2025

CTGT Innovations Pvt. Ltd. | Pune, India Angular | TypeScript | RxJS | NgRx | Node.js | MongoDB | Nx

- Spearheaded frontend development for an **HR/placement management platform** tracking candidates from interview scheduling through hiring, including an **AI-assisted resume parsing workflow** that automated approximately **90% of user data entry** through REST API integration.
- Built reusable Angular components, responsive dashboards, dynamic forms, role-based workflows, and **NgRx/RxJS state management**, improving frontend development efficiency by approximately **50%**.
- Improved application performance using **OnPush change detection, RxJS, NgRx, lazy loading, and reusable architecture**, reducing redundant API calls and improving load times by approximately **20%**; reduced manual reporting effort by **4+ hours/week** through ECharts-based dashboards.
- Collaborated in a **5-member cross-functional engineering team** on production features involving **Node.js, MongoDB, REST APIs, PWA, Nx monorepo architecture, and frontend/backend integration**.

Professional Development

Artificial Intelligence & Machine Learning Program

2026 – Present

Vishlesan i-Hub, IIT Patna | Delivered through Masai School

- 9-month program covering **Python, Data Analysis, Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, LLMs, RAG, and MLOps**.

Projects

EaseAmuse Java | Spring Boot | MySQL | Spring Security | JWT | JPA | AWS

GitHub

- Developed secure **REST APIs with JWT-based authentication**, location-based search, booking, slot management, and dynamic pricing; deployed services on **AWS Elastic Beanstalk** and documented APIs using Swagger.

Task Planner Angular | TypeScript | Java | Spring Boot | MySQL | NgRx | RxJS | AWS

GitHub

- Built a responsive full-stack application with **Angular, NgRx, JWT authentication, Spring Boot REST APIs, RxJS, MySQL, and AWS S3**, and deployed frontend/backend on Netlify and Railway.

Education

B.Tech, Electrical and Electronics Engineering — RKDF Institute of Science and Technology

2020 – 2023

Diploma, Electrical Engineering — Kalaniketan Polytechnic College

2017 – 2020

Class 12, PCM — DAV Public School

2015 – 2017
